**Main functions, requisites & benefits****Main functions**

The selected applicants will join the Engineering Department, CAF Technical Office. These technicians will be in charge of the projects assigned to them. This means that their objective is to ensure that the design of the train is successfully completed within the agreed time limit and according to the specifications established in the project conditions. In technical terms, they will specialise in the coordination and carrying out of the design in diverse technical areas of engineering (Structures, Bogies, Systems and Assembly).

Requisites

Industrial Engineering, Electronics, Telecommunications Degree or similar. Proven experience in design engineering in industrial environments. High level of English and Basque (other languages highly valued).
