## Main functions, requisites & benefits

### Main functions

We're growing our Product and Marketing teams and thus searching for driven, passionate, talented UI Designers to join our team in Bilbao. You will be responsible of executing visual design stages and do the final hand-off to engineering. You will be in charge of preserving Aplanet visual identity, making sure that our Product, Technology and Marketing teams have the materials and guidelines required. You are a polyvalent designer who can one day be working on product design at pixel perfect level and the next day creating marketing material? You hate monotony and are willing to have high diversity in tasks? We want to meet you!

### Requisites

We don't expect you to fulfill all the points, is just a guide to understand the scope of the role: Artistic mind with an eye for detail. Demonstrable UI design skills with a strong portfolio. Proficiency in Sketch, Adobe XD, Photoshop, Illustrator, OmniGraffle, or other visual design and wireframing tools. Ability to solve problems creatively and effectively. Sensitivity to user-system interaction. Up-to-date with the latest UI trends, techniques, and technologies. Experience in video edition is a plus. Entrepreneurial spirit and willingness to have fun!

### Benefits

A fast moving, technology-first organization. An open and collaborative environment. We make sure that all voices are heard. Offices in Bilbao and in Madrid. Remote days available upon agreement. Great career path and opportunities for growth. We work hard, and we play hard. Company volunteer opportunities. Wake up every day with the aim of making the world a better place.
