

**Company  
Description**

BCAM is the research center on applied mathematics created with the support of the Basque Government and the University of the Basque Country, which aims to strengthen the Basque science and technology system, by performing interdisciplinary research in the frontiers of mathematics, talented scientists' training and attraction, so the excellence of our results are recognized by the Society. One of BCAM's most important missions is to spread knowledge and technology in the industry and society in general. It is critical for the Basque Center for Applied Mathematics to transfer the obtained research results to sectors as biosciences, health, energy, advanced manufacturing, telecommunications and transport, including local, national and international entities.

**Main functions, requisites & benefits****Main functions**

We are looking for a CFD Research Technician to work at BCAM's Knowledge Transfer Unit (KTU). The aim of the KTU is to develop mathematical solutions for scientific challenges based on real-life applications. The candidate will collaborate in knowledge transfer projects with industry and research entities. His or her tasks will include: Elaborating interim and final analysis of research projects. Assisting and preparing presentations to stakeholders. Contribution to the preparation and production of publications and report.

**Requisites**

Requirements: Master's degree in Engineering, Physics, Applied Mathematics, or related fields. Strong background in CFD, numerical simulations and numerical methods for fluid dynamics applications. Fluency in spoken and written Spanish and English.

Desired skills: Knowledge of advanced CFD methods and/or machine learning techniques. Ability to analyse data, perform statistical analysis and interpret results. Strong analytical and problem-solving skills. Strong programming skills. Ability to read scientific publications and implement mathematical algorithms. Good interpersonal skills. Ability to effectively communicate and present research ideas to researchers and stakeholders with different backgrounds. Demonstrated high level written and oral communication skills. Demonstrated ability to work independently and as part of a collaborative research team.
