

Company Description

Fundación Biofísica Bizkaia (FBB) is a center of excellence on an international level with the main aim of promoting a multidisciplinary program in the field of Biophysics and its application in the areas of Biotechnology and Health, focusing all its resources in Instituto Biofísica Institutua (UPV/EHU, CSIC), a joint research centre of the University of the Basque Country (UPV/EHU) and the Spanish National Research Council (CSIC). The mission of the FBB is to support the research and educational goals of the Instituto Biofísica (IBF). To this end, the FBB provides support to IBF scientists in the preparation of grant proposals for national and international funding agencies. Moreover, the FBB also provides post-award financial and management support.
