

Company Description

Information

 Deadline: 2019-11-14
 Category: Academia
 Province: Bizkaia

 Country: Basque Country
 City: Leioa

Company

Achucarro Basque Center for Neuroscience

Main functions, requisites & benefits

Main functions

The candidate will develop a project entitled "Regulation of myelin damage and repair by cannabinoid CB1 receptors in astrocytes" under the supervision of Dr. Susana Mato. The candidate will join a multidisciplinary and highly collaborative environment and will benefit from access to frontline technical resources and state-of-the-art techniques in Neurosciences.

Requisites

An university degree in Physics, Chemistry, Engineering, Biology or related areas.

Benefits

FUNDING IS AVAILABLE for the candidate to start his/her experimental activity at the Laboratory of Neurobiology in June 2020. Alternatively, the PhD student will join our research group in September-October 2020. The PhD students will be enrolled at the Neuroscience Doctorate Program of the UPV/EHU.
