

Company Description

Job Description A PhD position is available at POLYMAT (San Sebastian, Spain), and INAM (Castellon, Spain) to conduct research in Organic Polymers for Optoelectronic Devices. Main tasks of the position will be: Synthesis and characterization of Monomers and Polymers. Structural characterization. Morphological study of perovskite: monomers/polymers blends. Preparation of Optoelectronic Devices Based on Organic Polymers Eligibility Applicants must have a BSc and MSc in Chemistry or Chemistry of Materials and general knowledge about polymer and optoelectronic devices. Good command of written and spoken English is a must. The selected candidate is expected to conduct research, travel, write papers, and deliver a PhD thesis. Applications Applications, as one single PDF, should be submitted electronically to Prof. Juan Luis Delgado (juanluis.delgado@polymat.eu) and to Prof. Iván Mora-Seró (sero@uji.es) before of January 25, 2020 and should include: (i) a cover letter highlighting their interest in the position. (ii) curriculum vitae. (iii) a short description of previous research (1-2 Pages). (iv) the names and contact addresses (e-mail) of two academic referees. For further information or queries, please contact juanluis.delgado@polymat.eu or sero@uji.es Please note that because of the large number of applications expected, we will not be able to give individual feedback to unsuccessful applications.

Information

Deadline: 2020-01-25
Category: Business
Province: Gipuzkoa

Country: Spain
City: SAN SEBASTIAN

Company

Polymat

POLYMAT
Basque Center for
Macromolecular Design and Engineering
