

Company Description

The Kapsch Group is a globally operating technology corporation headquartered in Vienna. The company's areas of expertise – digitalization and mobility – are addressed via two business units that offer end-to-end solutions along the entire value chain.

Kapsch BusinessCom is the ideal partner for digital transformation. Kapsch TrafficCom is an expert in traffic management and offers intelligent solutions for toll collection, smart urban mobility, road safety and connected vehicles.

Kapsch strives for global leadership in terms of quality and innovation and therefore annually invests some 10% of its total revenue in research and development. The R&D centers of the Kapsch Group are constantly working to make new technologies marketable. Long-standing collaborations with scientific institutions and strategic acquisitions provide additional know-how.
