VAILLANT GROUP

Main functions, requisites & benefits

Main functions

The aim of this position is to take the manufacturing engineering lead in product development projects according to our development process:

- Support the R&D-team with manufacturing know-how for new and changed products.
- Ensure the Vaillant Group Design-for-Manufacturing and Design-for-Assembly process.
- Support the development of production processes in different locations.
- Manage the communication between the Vitoria R&D team and local engineering teams at other Vaillant Group plants.

Requisites

What you bring along:

- Master's degree in Engineering or Industrial Engineering or a comparable qualification.
- At least five years of professional experience with a preferred focus in automotive industry.
- Knowledge in project management, very good communication skills and inter-cultural competencies.
- Knowledge of PLM (e.g. Windchill), ACAD, MS Project and MS Office is desirable.
- Experience as MTM-Expert and pipe manufacturing is valuable.
- Willingness to travel regularly to other Vaillant Group locations.
- Proficient English language skills.

Benefits

Vaillant Group is an equal opportunity employer. Health insurance. Flexible timetable. Training.
