Universidad de Deusto

Main functions, requisites & benefits

Main functions

Deusto Institute of Technology -DeustoTech- (<http://deustotech.deusto.es/>) located in Bilbao (Spain), is a Research Institution of the Faculty of Engineering at the University of Deusto, and was created with the mission of promoting research and postgraduate training in Information Technology and Communications (ICT) through the participation in research projects of interest to society and industry. DeustoTech is looking for promising young researchers in the areas such as Artificial Intelligence, Pervasive Computing and Computer Systems. The positions are directed to postdoctoral researchers and they are intended to offer five years Fellowships. A competitive salary will be offered based on the experience of the selected candidates. They are intended to offer a track towards a PI role and independent research.

Requisites

The applicants must have their PhD completed between 1/1/2009 and 31/12/2017. We are looking for experienced researchers in at least one of the next areas (but not limit to): Data Science, Machine/Deep Learning, Predictive Analytics, Optimization, Natural Language Processing, Seamless Positioning and Navigation Algorithms, Internet of Things/People, Human Computer Interaction, Computing Architectures (Cloud, Big Data, HPC, Edge), Cibersecurity, Blockchain.
