Company

LKS Selection & Training Management

Main functions, requisites & benefits

Main functions

Work in a growing multinational of electronics, coordinating the logistics, both internal and external of all its plants.

As Head of Logistics and Warehouse, depending on the Purchasing and Logistics Head, you will be responsible, among other things, for organizing, coordinating and be in charge of all the warehouse activities, standardizing the internal processes of the activities linked to logistics in all the factories of the group and guaranteeing the correct entry and exit of warehouse materials and equipment according to the company's internal procedures.

You will also be the person in charge of managing the classification and organization of the merchandise in the warehouse, coordinating it and planning together with production. You will also coordinate the team members by establishing work methods, procedures, records, controls etc. linked to the warehouse (such as inventory of the same).

You will comply with and enforce the rules and procedures in matters of integral security, established by the organisation.

Requisites

You will have superior studies, experience of at least 5 years with similar functions, high level of English and availability to travel.
