## Main functions, requisites & benefits

### Main functions

To perform teaching and research functions in the specific field of study, and may include academic management tasks in the future.

### Requisites

A Degree in Telecommunications Engineering or Industrial Automation and Electronics. A PhD and a positive assessment by an Official Quality Agency (ANECA / UNIBASQ) for the position of Lecturer /PhD at a Private University would be considered an asset. In the event of not having this accreditation, the accreditation of Assistant Lecturer (PhD) would be an advantage. Experience as a university lecturer and researcher in the above fields. Experience in tutorial or coordination plans of degree programmes. Fluency in English (level C1) and a knowledge of Basque language will be considered an advantage. Experience in basic and applied research in the above field of study, which provides the ability to complement the theoretical training offered to students through the development of internships and projects to provide comprehensive training. As for generic competences, we seek a qualified professional, with a teaching vocation, empathy, capacity for teamwork, motivation for innovation, capacity to adapt and to identify with UD's identity and mission.

### Benefits

Joining the Engineering Faculty team at the Bilbao campus (start date 1 September 2021). The position will be full time. The salary will be based on the candidates' experience and skills.
