

**Company
Description**

Tecnalía <https://www.tecnalia.com/> is the first private applied Research Center in Spain and the seventh in Europe, with a workforce of 1,405 highly qualified people (229 doctors). Tecnalía is a leading Research and Technological Development Centre in Europe, whose mission is to transform technology into GDP to improve people's quality of life, by creating business opportunities for companies, being member of BRTA (Basque Research and Technology Alliance). Tecnalía works with an increasingly strategic business relationship model based on trust, collaboration, and a shared technological approach, whereby our main scopes of action are: digital transformation, advanced manufacturing, energy transition, sustainable mobility, health, and the urban ecosystem. The group is the first private Spanish organisation in contracting, participation, and leadership in the European Commission's Horizon 2020 programme and we are ranked second in European patent applications.
