

Company Description

About All Iron Ventures Promoted by the founders of Ticketbis (acquired by eBay in 2016 and one of Spain's main success stories in tech) and with ~€110M under management, All Iron Ventures (AIV) invests in the early stages of European companies that aspire to reshape the future of both consumers and enterprises through technology. We have an international DNA and aspire to become one of the European players of reference. We have so far invested in 45+ companies in multiple European countries and the U.S. alongside top co-investors and our graduation rates place us in the industry's top quartile. We are entrepreneurs at heart and that defines who we are and how we work. In addition to building what AIV is today, we sit in the driver's seat of our own venture studio, so we can turn our experience creating, expanding, and selling companies into industry winners. Needless to say, we work hand-in-hand with our portfolio companies to help them get to the next level. We value and believe in hard work, humility, teamwork, communication, and good character, and everything that we do is inspired by these values. Working with us Become a part of a young, growing organization where you will be given the chance to make an impact from day one across multiple areas, having full exposure to challenging situations and decision-making power from the beginning. In addition to the "core" of VC investing, we offer you the opportunity to have first-hand

Main functions, requisites & benefits

Main functions

Your core responsibilities will be centered around a new fund that we are launching that will be structured as a fund of VC funds. Your responsibilities will include: play a central role in the investment process, managing the whole investment cycle end-to-end: identifying funds, analyzing and benchmarking fund attributes, conducting due diligence of potential target investments, drafting materials for investment committees, and coordinating investment completion (KYC, compliance, disbursements, etc.). participate in the ongoing relationship management of our portfolio funds, supporting them as needed and liaising with the broader AIV infrastructure and resources where appropriate. develop and permanently improve internal tools to optimize analysis and investment decisions, by keeping yourself tuned to market trends and gathering market intelligence (fundraising calendars, performance data, best practices, etc.). work closely with the AIV finance team, conducting regular monitoring of portfolio funds' performance and supporting in a range of tasks and processes. assist with regular reporting to investors, including both quarterly (fund reporting) and ad hoc communications (new investments, legal matters, etc.). contribute to AIV's marketing activities, representing AIV at industry events and continuously building and expanding your own network, in particular with other VC fund managers and the broader tech ecosystem. assist with special projects for AIV as a whole on an as-needed basis.

Requisites

We are looking for someone who is excited about venture capital, technology, entrepreneurship and the broad startup ecosystem and who is willing to take on above-average responsibilities in an environment where things are being built on a daily basis. The right candidate should be excited about developing a key AIV project from its early stages and have the skills to execute efficiently. We provide a significant degree of freedom and expect you to be proactive, responsible and to have initiative, a "can-do" attitude and strong worth ethic and commitment. In particular, you could be a good match if you have: between 6-9 years of relevant work experience in venture capital/private equity, asset management, investment banking, M&A/corporate finance, equity research or management consulting. a genuine interest and familiarity with the broad venture capital industry and its dynamics, including startups, managers, investors, trends, etc. strong analytical skills, both quantitative and qualitative. great communication and interpersonal skills, both written and verbal. an ability to build relationships quickly and effectively with a range of players in the industry and to permanently nurture and grow your network. advanced financial modeling and data analysis skills, as well as familiarity with valuation methodologies. CFA and equivalent certifications are a plus. an understanding of operational, financial & regulatory requirements pertaining to the private equity / venture capital industries. an excellent command, both oral and written, of Spanish and English. Additional languages are a plus. team-player skills and the ability to also work independently and with limited supervision. exceptional organizational skills and excel at attention to detail, as well as the capacity to multitask and work against tight deadlines.
