JAVA SENIOR SOFTWARE ENGINEER

Company Description

We are the 100% Digital bank of the Santander Group, and we are currently undergoing a technological transformation and international expansion. In 2016 the re-launch of the Bank began and since then we have been in continuous expansion and growth, especially in our technological side. We work in a start-up format, using agile methodologies to take our clients' experience to the next level. In 2019 we launched the Bank in the Netherlands, Germany and Portugal and we are almost landing in Argentina, with others to follow. Our culture makes us different; social and diversity clubs are part of our essence and allow us to live our culture every day. We are a flexible and fast adapting team that currently works remotely most of the time using all kinds of communication tools, we haven't noticed the change!

Openbank

Main functions, requisites & benefits

Main functions

The Senior Software Engineer translates business requirements into technical specifications for our Java-based core banking solution. As a Senior Software Engineer we expect you to provide technical insight and direction, use the right development methodologies and assess areas of improvement within our code by reviewing others.

Requisites

4+ years of experience of Java (preferably Java 8), with excellent core understanding. Strong development practices including code reviews, unit testing and regression testing. You will work with: Java 8. Spring Framework. Git. Maven. Swagger/RAML/OpenAPI. Bamboo/Jenkins. JBoss/Weblogic/Websphere. AWS. Advanced English Level. Nice to have: Experience working on cloud environments. Experience in RESTful API architecture patterns and integration design principles. Demonstrable experience of applying TDD and BDD development practices.

Benefits

Immediate incorporation to a dynamic and agile company with a growth and expansion project. Working in start-up mode with the support of Grupo Santander. Competitive remuneration and attractive benefits package. Possibility of growth within the company and the Group. Collaboration in international projects and possibility of contact with different countries. Excellent work environment, social clubs and frequent events (now virtual). Would you like to grow with us? Join our team! Openbank is an equal opportunity employer. All applicants will be considered as equal without paying attention to gender identity, sexual orientation, ethnicity, religion, age, political orientation, union membership nor disability status. We make recruiting decisions based on your experience and skills. We value your passion to discover, invent, simplify and build. If you're not currently living in Madrid or Valencia and you are open to relocate, we would still love to consider your application.
