

Company Description

POLYMAT is a growing interdisciplinary polymer research centre with world-class research facilities devoted to use-inspired fundamental research on synthesis, assembly and processing of polymers that in concert with theory and simulation enable addressing some of the 21st century challenges in areas such as energy, health care and sustainability. POLYMAT holds the HR Excellence in Research award that reflects our commitment for fair and transparent recruitment and appraisal procedures in line with the European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers.

 Macromolecular Design and Engineering

Main functions, requisites & benefits

Main functions

A Postdoctoral Fellowship in Energy Storage is available (in the group of Dr. Irune Villaluenga) at the Basque Center for Macromolecular Design and Engineering, POLYMAT Fundazioa.

Requisites

Applicants must have a PhD in Polymer Science or in Chemistry. Those with experimental and communications skills, and enthusiasm for research and innovation are encouraged to apply. The expected starting date is around January-February 2021.

Benefits

The expected starting date is around January-February 2021. POLYMAT has obtained the 'HR Excellence in Research award'. The award reflects our commitment to continuously improve our human resource policies in line with the European Charter for Researchers, the Code of Conduct for the Recruitment of Researchers and our commitment to achieve fair and transparent recruitment and appraisal procedures.
