Universidad de Deusto

Main functions, requisites & benefits

Main functions

A lecturer and researcher with experience in the field of programming and artificial intelligence. Types of subjects: Software Development, Web Engineering, Databases, Project Management, etc. The position involves performing teaching and research functions in the specific field of study, and may undertake academic management tasks in the future.

Requisites

A degree in Computer Engineering. Holding a PhD and a positive assessment by an Official Quality Agency (ANECA / UNIBASQ) for the position of Lecturer /PhD at a Private University would be considered an asset. In the event of not having this accreditation, holding an accreditation as an Assistant Lecturer (PhD) would be an advantage. Experience as a university lecturer and researcher in the above fields. Experience in delivering online courses and in participating in tutorial or coordination plans of degree programmes would be an asset. Fluency in English (level C1) and a knowledge of Basque language will be considered an advantage. Candidates should demonstrate having knowledge of software development and business applications, as well as work experience in the indicated area of expertise. We are looking for a motivated person, who can transmit to students the needs of the sector and collaborate in the management and implementation of laboratories to provide students with an all-round education. As for generic competences, we seek a qualified professional, with a teaching vocation, empathy, capacity for teamwork, motivation for innovation, capacity to adapt and to identify with UD's identity and mission. We support the inclusion of people with disabilities at the University of Deusto. We therefore encourage you to include this condition in your application (certificate of disability equal to or greater than 33%).
