

Company Description

FEV Consulting combines top management consulting expertise with the technical capabilities and knowhow of the FEV Group. Our deep industry knowledge enables us to create pragmatic solutions to some of the most pressing and complex issues facing today's enterprises. The impact of new product and process technology, shifting patterns of supply and demand, and ever increasing customer, investor and legislative requirement create new, intense pressures on businesses worldwide. FEV Consulting works with clients to address their most challenging business issues. We employ an analytical approach, proven capabilities and – most importantly – real industry knowledge to resolve clients' problems.
