

## Company Description

Polymers are found in such a large variety of products that have shaped modern life. In the future, polymers will continue substituting other materials in established applications and will play a major role in the development of the technologies needed to address some of the 21st Century challenges such as energy, health care and sustainability. POLYMAT is devoted to use-inspired fundamental research on synthesis, assembly and processing of polymers that in concert with theory and simulation enable addressing these challenges.

## Information

 Deadline: 2022-05-15  
 Category: Business  
 Province: Gipuzkoa

 Country: Basque Country  
 City: Donostia-San Sebastian

## Company

Polymat

**POLYMAT**  
 Basque Center for  
 Macromolecular Design and Engineering

## Main functions, requisites & benefits

### Main functions

The selected candidate is expected to conduct research, write papers, and deliver a PhD thesis.

### Requisites

Applicants must have a BSc and MSc in Chemistry, Applied Chemistry, Chemical Engineering, Materials, Physics or Mechanical Engineering, with a background in Polymers. Good command of written and spoken English is a must (if preselected, a telephone interview will be carried out before any other appointment is made). The applicant must meet the following requirements: Aged under 30 years old at the time of starting the contractual relationship Unemployed and registered in the public employment service LANBIDE Be up to date with tax obligations and with Social Security People who have held any type of research position in the same company or its associates within the previous 6-months are not eligible Must live in the Basque Autonomous Community
