PHD FELLOWSHIPS IN NANOSTRUCTURED POLYMER ELECTROLYTES FOR SOLID-STATE

Information

Deadline: 2022-07-31
Category: Academia
Province: Gipuzkoa

 Country: Basque Country
City: Donostia - San Sebastián

Company Polymat

Main functions, requisites & benefits

Main functions

A PhD Fellowship in Chemistry is available in the Innovative Polymers Group (http://www.polymat.eu/en/groups/innovative-polymers-group) at the Basque Center for Macromolecular Design and Engineering, POLYMAT Fundazioa. The aim of this position is to advance into the synthesis and characterization of polymer nanoparticles and nanostructured polymer electrolytes for energy applications.

Requisites

Applicants must must have a BSc / MSc in Chemistry or similar with a strong background in Organic Chemistry, Polymer Science, Electrochemistry and Materials Science. Those with experimental and communications skills, and enthusiasm for research and innovation are encouraged to apply. Good command of written and spoken English is a must. The selected candidate is expected to conduct research, write papers, and deliver a PhD thesis.

Benefits

Temporary contract, full time
