

Company
Description

CAF T&E is the company that leads the development of comprehensive mobility infrastructure projects for the CAF Group. A multinational present on five continents that works to provide a turnkey solution that contributes to the mobility strategy of the territory in which it operates. At CAF T&E we work throughout the entire life cycle of the project from design, development, construction, installation, operation and maintenance, to guarantee a safe, quality, and cutting-edge technological mobility infrastructure. In this way, we take care of all the integral management of the project, and we do it with a multidisciplinary approach, integrating diverse profiles. For more information: <http://www.cafte.com/> At CAF T&E we are committed to equal opportunities since we believe that diversity adds up. We work to create an inclusive work environment, ensuring non-discrimination based on sex, age, color, religion, disability, sexual orientation, or gender identity in all our Human Resources' policies. We make our hiring decisions based on your experience and skills.
