

Company Description

BC3 is a Research Centre on the causes and consequences of climate change. Led by one of the most recognized scientists in the Climate Change field -Prof. Maria José Sanz, we produce multidisciplinary knowledge to support decision making towards sustainable development at the international level. With a multidisciplinary team, connected to the main scientific institutions, networks and socio-economic agents, for a decade, our contribution to research of climate change and to the science-policy interface puts us in a unique position to offer knowledge, tools, new methodologies and cross-cutting proposals, that we lead towards action in a collaborative framework with stakeholders, to design and help implement policies aimed at sustainable development.

Company

BC3 Basque Centre for Climate Change

Main functions, requisites & benefits

Main functions

The Basque Centre for Climate Change (BC3) offers a full-time Scientific Project Manager Position on the BlueAdapt project. BlueAdapt is a 4-year Horizon Europe project (GA 101057764), funded by HORIZON-HLTH-2021-ENVHLTH-02-03 call and developed by a consortium of 12 European partners and coordinated by BC3. BlueAdapt attempts to provide an evidence base for innovation and action around coastal pathogens and climate change, by bringing together an interdisciplinary team of biologists, climate scientists, economists, epidemiologists and public health experts to investigate and quantify the future health risks associated with selected coastal pathogens, and identify potential adaptation measures within case studies. BlueAdapt will also communicate the results to a wide audience, including both policymakers and the public. **Job description:** To support BC3 in the coordination and management of the entire project we are looking for a Scientific Project Manager who can support the Coordinator and the consortium in the management and coordination tasks. **Key responsibilities:** Support the Scientific Coordinator in the Strategic Management of the project. Financial and administrative project management at the consortium level. Focal contact point between the Coordinator, the Partners and the Commission. Manage interactions with internal and external specialists on ethical and legal aspects, communications, and with the external advisory board. Organization of project meetings, including financial and administrative aspects. International travelling and participation to consortium meetings when required.

Requisites

Main requirements/skills: Masters or PhD degree. Experience in Scientific Project Management. Excellent project management skills related to finance, administration and communication. Ability to coordinate teamwork and interact with a broad range of scientific and policy stakeholders at European level. Experience in R&D EU projects, knowledge of H2020 and Horizon Europe Programme. Excellent interpersonal and communication skills. Excellent written and oral command of English.

Benefits

Benefits and work environment: Interdisciplinary and inspiring work environment. 35-hour week work calendar. 30 days of vacation per year.
