Company

SOLARPACK

Main functions, requisites & benefits

Main functions

WHAT WE ARE LOOKING FOR In Solarpack we are looking for an M&A Junior Analyst for our offices based in Getxo. **YOUR ROLE WILL CONSIST ON:** Elaboration of complex financial models and financial valuation of opportunities using different methods (DCF, multiples, etc.). Preparation of presentations for the investment committees, including investment memorandums, company profiles, competitive environment, presentation of opportunities and their valuation. Monitoring and updating of the pipeline of opportunities and necessary actions. Preparation of non-binding and binding offers for the purchase of opportunities. Complete due diligence management of opportunities, including selection and coordination of internal and external advisors (financial, legal, financial, tax, commercial, etc.). Search for opportunities to purchase projects and portfolios of photovoltaic and wind projects, both greenfield and brownfield. Search for companies that develop solar photovoltaic or wind projects. Review and analysis of documentation in transactions: SPAs, Development Services Agreements, etc.

Requisites

YOUR PROFILE: +2 years in corporate development, corporate finance, investment banking or private equity hands departments. High level of both spoken and written English. Advanced knowledge of corporate finance, valuation and accounting. Advanced knowledge of project finance. Knowledge of the electricity sector and renewable energies. Analytical skills and attention to detail. Strong oral and written communication skills, including presentation skills. Expert knowledge of Excel and financial modeling, including advanced knowledge of Visual Basic. Expert handling of PowerPoint and Word. **SKILLS:** Proactive person with the ability to learn. Able to make decisions based on experience.

Benefits

Our corporate values (integrity, open-mindedness, agility and high performance) define our behavior and are a true reflection of the way we carry out our work on a daily basis. We work with a sustainable awareness and we are involved in providing equal opportunities. We facilitate the personal and work-life balance, with different actions such as flexible hours and the possibility of remote working.
