IOS TVOS SOFTWARE ENGINEER

Bizkaia talent

Company Description

We are leading specialists in television and video services, with a true passion for technology and innovation. We help organizations transform their television and video businesses to successfully meet the needs and expectations of today's audiences. Our purpose is to drive the evolution of television and allow more people to benefit from the advantages and opportunities that technology brings to the way we consume video. We aim to provide the best information and entertainment video experience by partnering with telecom operators and media companies.

Information
