SENIOR FRONTEND DEVELOPER

Company Description

We are leading specialists in television and video services, with a true passion for technology and innovation. We help organizations transform their television and video businesses to successfully meet the needs and expectations of today's audiences. Our purpose is to drive the evolution of television and allow more people to benefit from the advantages and opportunities that technology brings to the way we consume video. We aim to provide the best information and entertainment video experience by partnering with telecom operators and media companies.

Company

Agile Content

Main functions, requisites & benefits

Main functions

Develop new user-facing features. Write scalable, maintainable, testable and clean code. Keep an active role in solving problems both in the code and in the team. Work closely with the backend team to integrate frontend interfaces with server-side APIs. Help the team use good practices and foster the importance of code quality. Build reusable code and libraries for future use. Ensure the technical feasibility of UI/UX designs. Collaborate with other team members in a Continuous Integration (CI) environment. Follow the development workflow using agile methodologies.

Requisites

To be successful in this role, you must have: At least 5 years of experience as a frontend developer. Experience in the development of modern, responsive and intuitive interfaces. Experience working in agile and dynamic environments. Excellent knowledge of HTML5, CSS3, JavaScript. Experience testing components with Jest and testing library. Proficient understanding of client-side libraries/frameworks (ReactJS). Functional programming principles and good practices. English B2 level and Spanish C1/C2 (or equivalent) IT Bachelor's degree or equivalent industry experience. It would be great if you have experience with these technologies: NextJs Typescript Storybook UI libraries Microfrontends

Benefits

Why join us? Thrilling projects and products are waiting for you. Lots of things to do, a bunch of talented people to work with and a real technological challenge. Ready to foster innovation? Your family and friends will see the outcomes of your job. How terrific is that! Because we believe your personal life is as important as your career, you can enjoy flexibility in terms of location, working hours... You will be connected to some of the coolest brands and bigger companies worldwide. Your colleagues will be from different nationalities, cultures and backgrounds. We offer free English lessons after 6 months with us. Willing to feel empowered in an ongoing learning environment? Would you like to attend industry events and summits? If so, this is the place for you.
