

Company Description

Nabla Wind Hub is a European wind energy independent system-solution provider, that offers to the market the most advanced solutions, analytics, and components, counting on commitment and competences to win and deliver long-term large-scale deals. Through our own combined technologies and global patents, Nabla Wind Hub is a pioneer international reference for end-to-end wind energy solutions, focusing on three strategic industry aspects: life extension, performance improvement, and maintenance optimization. At Nabla we promote diversity, as our co-workers come from different nationalities and different cultures, and we strongly believe that our diversity enriches us and helps us reflecting, learning, and improving the services that we offer. In this occasion we are willing to incorporate in our team a Full Stack Developer to support our IT and Product Development teams, and will help us grow.
