Main functions, requisites & benefits

Main functions

At Liftra we are world leaders providing design, engineering, production and operation of tailormade lifting and transport solutions for the global wind industry for Onshore and Offshore applications. As part of our growth strategy, we are currently looking for a Procurement and Supply chain specialist located in Bilbao office.

As part of the Project Management Office and in coordination with the Project Manager and the rest of the project team, the candidate will lead the project purchases including mechanical, electrical/electronic and hydraulic components. The candidate will be accountable of the complete purchase phase, from defining the request for quotations to the reception of the goods in time and budget. The main responsibilities of the candidate will be the following: Understand the production and engineering requirements for each project and define the specific purchasing requirements, including: mechanic, electric, hydraulic and electronic equipment, bolting, small hardware, etc... Assist in developing bid specifications regarding project needs. Define and manage the supplier request for quotations. Select and negotiate the most appropriate quotations in terms of costs, quality and lead time. Tracking the status of requisitions, contracts, and orders. Ensure the information is completed into the ERP system. Coordinate, follow up and quality assurance of the orders. Logistics management, import/export and Incoterms.

Requisites

Education: Bachelor or Master's in engineering, preferable mechanics/metallurgical. 1 to 3 years' experience on similar responsibilities within the metallurgical, heavy industry or capital goods markets. Experience in Windturbine market will be highly valued. Ability to listen, communicate (written and verbal), and follow-up effectively. Ability to work independently, be a self-starter and energetically approach tasks assigned. ERP Navision knowledge would be a plus. Must have a very high English level. Flexibility to travel when required (few expected).

Benefits

You will integrate in a innovative company, world leader in self-hoisting technologies for windturbine maintenance. Will enjoy an international environment, both in Bilbao's team and thorough all Liftra offices in the world Northern Europe cultural environment: flexible schedule, self management, nice work environment. Gym at the office.
