

Company
Description

Schneider Electric is leading the digital transformation of energy management and automation. Our technologies enable the world to use energy safely, efficiently and sustainably. We strive to promote a global economy that is ecologically viable and highly productive. At the Mungia plant, we specialise in the design and manufacture of Medium and High Voltage energy solutions for Railways and High Speed Trains, Electricity Companies, Renewable Energies and the Electro-intensive Industry: Oil & Gas, Mining and Large Industry in general. We have a strong commitment to sustainable development. We are pioneers in the development of solutions for Wind Farms, and today more than 70% of wind turbines installed in Spain and more than 10% worldwide are equipped with our solutions.
