

Company Description

Haizea Wind Group is an industrial group founded in 2017 that focuses on the design, manufacture and assembly of large metal structures for wind turbines. The Group has large facilities in Spain (Port of Bilbao, Agurain, Itziar and Aranda de Duero), Argentina and France (Port of Brest), and has an ambitious expansion plan for the coming years. Are you ready to drive a sustainable future? HAIZEA Wind Group invites you to be part of the change and leave a global footprint in the wind energy sector. Wind energy is a global resource that requires innovative solutions. It's time to be part of the movement that drives the world! If you are looking for experience as WELDING ENGINEER in manufacturing projects of components for the offshore wind energy sector, such as offshore towers and monopiles (subsea foundations). This offer is perfect for you! Join our team and be part of the evolution towards a more sustainable future.
