

Company Description

The Laboratory of Circadian Physiology at Achucarro Basque Center for Neuroscience, is seeking one Postdoctoral researcher to join StarTicking a project funded by the European Research Council. If you are excited about brain development and how neuronal-glia networks mature to keep our physiology on time, JOIN US!

Information

 Deadline: 2024-02-20
 Category: Academia
 Province: Bizkaia

 Country: Basque Country
 City: Bilbao

Company

Achucarro Basque Center for Neuroscience

Main functions, requisites & benefits

Main functions

We are looking for a postdoctoral researcher (R2,R3) to assess the assemble and maturation of the brain circuit that controls circadian timing and the influence of pre- and post-natal environment in mice. Your main tasks will be: sampling mouse brain, performing single cell transcriptomics and analyzing data in close collaboration with a German bioinformatician research group.

Requisites

You need to have: a very good/excellent academic record in the field of Neuroscience, Bioinformatics, Biology or Computer sciences. a very good/excellent written and spoken English. a strong motivation for learning, willingness to be travel to Germany regularly. previous experience with animal experiments, molecular biology and /or bioinformatics will be highly appreciated.

Benefits

We offer a three-year full-time position, starting on April 2024. We are a highly motivated and collaborative Research Group in a vibrant scientific community with access to cutting-edge technical and scientific resources. Interested? Check our lab!!
