## Company

CIC energiGUNE

## Main functions, requisites & benefits

### Main functions

CIC energiGUNE is recruiting researchers with expertise in energy storage and conversion fields. We are a Research Center of Electrochemical and Thermal Energy Storage, a strategic initiative of the Basque Government. CIC energiGUNE was born in 2011 to generate excellent research in materials and systems for energy storage. The goal of CIC energiGUNE is to maximize the impact on results to the Basque business network through collaboration with universities, research centers, and companies. Do you want to know more about us and our Postdoctoral positions? Explore more clicking here: <https://cicenergigune.com/en/employment-opportunities>

### Requisites

PhD in Chemistry, Chemistry Engineering, Thermal Management, Materials Science or similar. Critical thinker and problem solver with preferred interest in technology transfer. Good verbal and written communication skills in English are essential.

### Benefits

We are offering a 3-year contract and advantageous professional development opportunities with the possibility of renewal based upon satisfactory job performance, continuing availability of funds, and ongoing operational needs. Flexible working hours and with on-site work model with the option to eventually telework. Full access to cutting-edge laboratory facilities and characterization platforms. The incorporation to a Top Research Center in Europe that makes high quality research and impactful contributions to the energy and sustainability fields. Professional and personal development: opportunity to attend seminars, international conferences, trainings, etc. Integrated, enthusiastic, international and multidisciplinary environment. A welcome program that offers help with finding accommodation and addresses other aspects to help you integrate into the local environment (such as free language courses, assistance with the administrative procedures, help with schools for children...).
