Main functions, requisites & benefits

Main functions

Role Overview: You will lead a team of talented frontend developers, guiding the design, development, and implementation of our platform's user interface, as well as our SDK. Your leadership will ensure that our platform meets the high-quality standards our users expect. **Key Responsibilities:** To lead, mentor, and grow a team of frontend developers To collaborate with cross-functional teams, including bioinformatics developers, backend developers, devops and product managers To facilitate communication between the frontend team and external bioinformatics developers using our SDK, including documentation, conferences, and direct communication. To manage project timelines, deliverables, and resources, ensuring milestones are met efficiently and effectively. To act as a liaison between the frontend team and other stakeholders to communicate project status, risks, and requirements effectively. to lead code reviews, maintain high coding standards, and introduce automated testing and quality assurance practices.

Requisites

Qualifications Bachelor's or Master's Degree in Computer Science, Engineering, or a related field. 10+ years of experience as a Frontend Developer with at least 2 years in a leadership role. Excellent knowledge of TypeScript and JavaScript languages. Strong expertise in modern frameworks (e.g., React, Angular, Vue.js) and proficiency in HTML5, CSS3, and responsive design. Experience integrating frontend components with complex backend systems. Excellent problem-solving, leadership, and communication skills. Experience in the bioinformatics field is a plus, but not required.

Benefits

What We Offer: A chance to be part of a groundbreaking platform that is changing the landscape of genomic research. A supportive and collaborative work environment where your contributions are valued and celebrated. Opportunities for personal and professional growth, with access to resources and training to advance your skills.. Competitive salary, comprehensive benefits, and flexible working arrangements.
