Bizkaia talent

Company Description

Nabla Wind Hub is a wind energy independent solution provider, that offers to the market the most advanced composite components, sensorics, analytics and engineering services, counting on commitment and competences to win and deliver long-term big-scale deals. Through our own combined technologies and global patents, Nabla Wind Hub is a pioneer international reference for end-to-end wind energy solutions, focusing on three strategic industry aspects: life extension, performance improvement, and maintenance optimization. Furthermore, Nabla Wind Hub promotes diversity, as our co-workers come from different nationalities and the diversity helps us reflect, learn, and improve the services that we offer.
