

## Company Description

BC3 is a Research Centre on the causes and consequences of climate change. Led by one of the most recognized scientists in the Climate Change field -Prof. Maria José Sanz, we produce multidisciplinary knowledge to support decision making towards sustainable development at the international level. With a multidisciplinary team, connected to the main scientific institutions, networks and socio-economic agents, for a decade, our contribution to research of climate change and to the science-policy interface puts us in a unique position to offer knowledge, tools, new methodologies and cross-cutting proposals, that we lead towards action in a collaborative framework with stakeholders, to design and help implement policies aimed at sustainable development.

## Company

BC3 Basque Centre for Climate Change

## Main functions, requisites & benefits

### Main functions

The Basque Centre for Climate Change (BC3), offers a part-time research assistant position of 4 months funded by the Spanish Ministry of Science and Innovation through the Ramón y Cajal (RYC2021- 031626-I), led by Dr. Violeta Cabello. About the Project: The project focusses on advancing knowledge co-production for the governance of the water-food-ecosystem nexus with a special focus on the Mar Menor lagoon (Murcia, Spain). The overall aim is to explore how knowledge co-production can be organised as transformative approach in highly contested wicked problems involving water management, agricultural production and ecosystem loss. After three years of fieldwork in the Mar Menor, the project is now focussed in data analysis and writing publications. Key Responsibilities: To support qualitative research tasks, especially interview coding and qualitative data analysis.

### Requisites

Main Requirements/Skills: Bachelor and MsC in social sciences or humanities research. Experience in qualitative research about social-ecological topics.

### Benefits

Benefits and Work Environment: Interdisciplinary and inspiring work environment. Quiet and spacious workspaces. Possibility of participating in internal training and academic activities of the center. 5-hours week work calendar (part-time: 50% of dedication). 30 days of vacation per year.
