

Company Description

The University of Deusto was founded in 1886 by the Society of Jesus. With campuses in Bilbao and San Sebastian and branches in Vitoria and Madrid, its hallmarks are education in skills and values, thanks to its own socially recognised teaching model. It is also characterised by its specialist research, its commitment to justice and international outreach. DeustoTech – Deusto Institute of Technology is the Technological Research Center of the University of Deusto, located on the Bilbao campus, whose mission is to promote research, training and knowledge transfer at the service of society and industry. Within the framework of the European project MOUNTADAPT, it seeks to strengthen its team with the incorporation of a postdoctoral researcher specialized in the application of artificial intelligence in the context of "environmental health".
