

Company Description

Deusto Education Research (eDucar), from the University of Deusto, whose mission is to improve education by advancing high-quality educational research with scientific, policy and societal impact, invites applications for a postdoctoral research position at the SCIREARLY Horizon Europe project. Context of the SCIREARLY Project: SCIREARLY (Policies and practices based on scientific research for reducing underachievement and early school leaving in Europe) is determined to identify, systematize and replicate successful policies and practices based on scientific research that has proven to reduce underachievement in basic skills, including digital skills, while fostering psycho-emotional aspects and well-being. This know-how will contribute to reducing Early School Leaving in Europe, enabling upward social mobility for the most vulnerable groups. The project relies on a participatory and dialogic approach that promotes the co-creation of scientific knowledge and solutions among educators, students, families, scientists and policy-makers, ensuring the societal impact of the project. Principal Investigator: Rocio García Carrión Funding Entity: Horizon Europe, project SCIREARLY. Starting Date: To be adapted to the availability of selected candidates (preferably on November 2024).
